

**Government of Andhra Pradesh
Abstract**

I & CAD Dept., - GMR -Vemagiri Power House - permission for laying of 24" dia water pipe line from GMR pump house situated on upstream of S.A.C Barrage and up to Vemagiri Power Plant - Permission accorded - Orders - Issued.

IRRIGATION & CAD (PW-Reforms) DEPARTMENT

G.O.Ms.No. 99

Dated: 16-09-2010.

Read:

From the Engineer-in-Chief (Irrigation), Letter No. ENC(I) /DCE-IV/OT
GDS/AE12/GMR Vemagiri Power Dt: 26.07.2010.

ORDER:

In the circumstances reported by the Engineer-in-Chief (Irrigation), in his letter read above, Government after careful examination hereby accord permission for laying of 24" dia water pipeline parallel to the existing pipe line covering an area of 4050 Sq. Mt under the jurisdiction of G.E. Division and 1800 Sq. Mt under the jurisdiction of G.H. Divisions from GMR Pump house situated on upstream of S.A.C. Barrage up to Vemagiri Power Plant by the firm subject to the following conditions.

Terms and Conditions:-

- 1) The firm shall pay the security deposit as directed by the Government.
- 2) The firm shall pay the lease amount in advance to the Government, monthly, as calculated for the Area (4050 Sq.mts+1800 Sq. Mts. =5850 Sq. mts.) at present rates in vogue as long as the agreement of lease is in force.
- 3) The firm shall take up safety works as directed by the Irrigation Department at the crossings.
- 4) The Hydraulic standards of canals should be maintained.
- 5) The pipe line shall not be taken beneath any C.M&C.D structure of Irrigation Department and a minimum distance shall be maintained as directed by the Irrigation Department.
- 6) No obstruction should be caused to the free flow of canal water under any circumstances.
- 7) While crossing of any Irrigation source at any point of Embankment reach, in case any failure is noticed the firm is liable for reconstruction of that reach as a whole at their cost as directed by the competent field authority of Irrigation Department.
- 8) Where the pipe line alignment is taken thorough the bed or slopes of the canal and the pipe line should be taken at least with one meter earth cushion from the radial bed level of slope.
- 9) When an improvement to the canal and its structures becomes necessary the obstructed pipe line alignment should be removed by the firm with their own cost and no compensation will be paid by this department.
- 10) The excavated soil should be cleared away from the canal as per the directions of the department at the cost of firm.
- 11) The work should be carried out as per the directions of the Irrigation Department at the cost of firm.
- 12) The Irrigation Department reserves the right for change of alignment of the pipe line where ever necessary with out assigning any reasons and the firm should not have any right to claim for any compensation.

13) The top level of the pipe line should be at least 1.50 mts below the bed level of irrigation canals.

14) At some places there are no slope and berms to the canal. In such locations, the firm has to take necessary precautions to form the slope and berms without effecting theoretical section of the canal.

15) The Irrigation Department reserves the right to cancel or to alter the permission now accorded at any time with out assigning any reasons.

16) The permission is for a period of 30 years only and the permission shall be renewed well in advance before the expiry of permission.

17) Any other conditions stipulated by the Irrigation &CAD Department will be binding on the firm.

2. The Engineer-in-Chief (Irrigation), Erramanzil, Hyderabad, shall take necessary further action accordingly in the matter.
